### HN Manufacturing exceeds 1500 days worked without a Lost Time Work Case

Horizon North Manufacturing achieved a significant milestone in July 2011 as the company exceeded 1500 days worked without a lost time injury. This is tremendous as it means every worker at Horizon North Manufacturing gets home safely without a debilitating injury. The employees of Horizon North Manufacturing were recognized for this significant achievement at a special luncheon held on July 14, 2011 in Grande Prairie.
