1. Reporting Entity

Horizon North Logistics Inc. (“Horizon North” or the “Corporation”) is a corporation registered and domiciled in Canada and is a publicly-traded corporation, listed on the Toronto Stock Exchange under the symbol HNL. The Corporation’s registered offices are at 900, 240-4th Avenue SW, Calgary, AB T2P 4H4. The condensed consolidated interim financial statements of the Corporation as at and for the three and nine month periods ended September 30, 2018 comprise the Corporation and its subsidiaries and the Corporation’s interest in associates and jointly controlled entities. Horizon North provides a full range of industrial, commercial, and residential products and services. Industrial services include workforce accommodations, camp management services, access solutions, maintenance and utilities. The Corporation’s Modular Solutions division integrates modern design concepts and technology with state of the art, off-site manufacturing processes; producing high quality building solutions for commercial and residential offerings including offices, hotels, and retail buildings, as well as distinctive single detached dwellings and multi-family residential structures. As a result of the diverse product and service offerings, Horizon North is uniquely positioned to meet the needs of our customers in numerous sectors, anywhere in Canada.

2. Basis of Presentation

(a) Statement of compliance

These financial statements have been prepared in accordance with IAS 34, “Interim Financial Reporting” as issued by the International Accounting Standards Board (“IASB”) and using the accounting policies the Corporation adopted in its consolidated financial statements for the year ended December 31, 2017, except as discussed below. The condensed consolidated interim financial statements do not include all of the information required for full annual financial statements. These financial statements were approved by the board of directors of Horizon North on October 31, 2018.

(b) Use of estimates and judgments

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. The judgments, estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual outcomes may differ from these estimates.

The judgments, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

In preparing these condensed consolidated interim financial statements, unless otherwise stated, the significant judgments, estimates and underlying assumptions made by management in applying the Corporation’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended December 31, 2017, except as discussed below.

Estimates

- Revenue Recognition Estimates – The Corporation recognizes revenue over time for its construction contracts and estimates progress of these contracts by comparing costs incurred to the total expected costs of the project. Determining the timing of the transfer of control – at a point in time or over time – requires judgement.

3. Significant Accounting Policies and Determination of Fair Values

The accounting policies and determination of fair values were set out in Note 3 and 4 of the Corporation's annual consolidated financial statements for the year ended December 31, 2017. As described below, these policies have been applied consistently to all periods presented in these condensed consolidated interim financial statements.

As a result, these condensed consolidated interim financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2017.

(a) Changes in significant accounting policies

(i) Adoption of IFRS 9 - Financial Instruments

Effective January 1, 2018, the Corporation adopted IFRS 9 - Financial Instruments, which replaced IAS 39 - Financial Instruments: Recognition and Measurement. The adoption of IFRS 9 did not have a material impact on the Corporation's Consolidated Financial Statements.

IFRS 9 contains three principal classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income ("FVOCI") and fair value through profit or loss ("FVTPL"). The previous IAS 39 categories of held to maturity, loans and receivables and available for sale are eliminated. The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. Derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

Impairment of financial assets: IFRS 9 replaces the "incurred loss" model in IAS 39 with an "expected credit loss" model. The new impairment model applies to financial assets measured at amortized cost, and contract assets and debt instruments at FVOCI. Under IFRS 9, credit losses are recognized earlier than IAS 39.

IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities. The differences between the two standards did not impact the Corporation at the time of transition. The adoption of IFRS 9 has not had a significant effect on the Corporation's accounting policies related to financial liabilities.

(ii) Adoption of IFRS 15 - Revenue from Contracts with Customers

Effective January 1, 2018, the Corporation adopted IFRS 15 - Revenue from Contracts with Customers replacing IAS 11 - Construction Contracts, IAS 18 - Revenue and several revenue-related interpretations. IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized.

The impacts of adopting IFRS 15 on the Corporation's condensed Consolidated Interim Statement of Financial Position as at September 30, 2018, the Consolidated Interim Statement of Comprehensive Loss and the Consolidated Interim Statement of Cash Flow, did not result in adjustments and did not materially impact the timing or measurement of revenue. However, IFRS 15 contains new disclosure requirements.

The Corporation has adopted IFRS 15 using the modified retrospective method, with the effect of initially applying this standard recognized at the date of initial application, January 1, 2018. Accordingly, the information presented for 2017 has not been restated, it is presented, as previously reported, under IAS 18, IAS 11 and related interpretations.

3. Significant Accounting Policies and Determination of Fair Values (continued)

(b) Update to Significant Accounting Policies

(i) Financial Instruments

Financial Instrument	IAS 39 Category	IFRS 9 Category
Trade and other receivables	Loans and receivables	Amortized cost
Trade and other payables	Other financial liabilities	Amortized cost
Loans and borrowings	Other financial liabilities	Amortized cost

(i) Non-derivative financial assets

The initial classification of a financial asset depends upon the Corporation's business model for managing its financial assets and the contractual terms of the cash flows. There are three measurement categories into which the Corporation classified its financial assets:

- Amortized Cost: Includes assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that represent solely payments of principal and interest;
- FVOCI: Includes assets that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets, where its contractual terms give rise on specified dates to cash flows that represent solely payments of principal and interest; or
- FVTPL: Includes assets that do not meet the criteria for amortized cost or FVOCI and are measured at fair value through profit or loss. This includes all derivative financial assets.

The Corporation initially recognizes trade and other receivables on the date that they originate. All other financial assets are recognized initially on the trade date at which the Corporation becomes a party to the contractual provisions of the instrument.

The Corporation's financial assets, trade and other receivables, are initially recognized at fair value plus any directly attributable transaction costs. Subsequently, loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

The Corporation derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained is recognized as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, there is a legal right to offset the amounts and the Corporation intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

(ii) Non-derivative financial liabilities

The Corporation's financial liabilities are categorized as measured at amortized cost.

The Corporation initially recognizes debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities are recognized initially on the trade date at which it becomes a party to the contractual provisions of the instrument.

The Corporation derecognizes a financial liability when its contractual obligations are discharged, cancelled or expire.

Bank overdrafts that are repayable on demand and form an integral part of the Corporation's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

Liabilities are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortized cost using the effective interest method.

3. Significant Accounting Policies and Determination of Fair Values (continued)

(b) Update to Significant Accounting Policies (continued)

(iii) Share capital

Common shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

(ii) Revenue

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Corporation recognizes revenue when it transfers control of the product or service to a customer, which is generally when title passes from the Corporation to its customer or when the customer receives the benefits from the service.

The Corporation recognizes revenue from the following major products and services:

(i) Camp rental and catering revenue

The Corporation provides camp rental and catering services to its customers. Depending on the customer's requirements contracts may be for camp rental only, catering and maintenance services only, or both camp rental and catering services. Revenue from the camp rental and catering services are recognized over time as services are performed. Occupancy days or mandays at the applicable day rate are used to measure recognizable revenue of the camp. Minimum mandays are included in certain contracts and contract variability, as a result of fluctuating mandays, is recognized in the period in which the mandays occur.

(ii) Construction contract revenue

Construction contract revenue includes the initial amount agreed to in the contract plus any variations in contract work, claims, and incentive payments, to the extent that it is highly probable that a significant revenue reversal will not occur. The Corporation recognizes revenue over time for its construction contracts, and estimates progress of these contracts by comparing costs incurred to the total expected costs of the project. Contract expenses are recognized as incurred unless they create an asset related to future contract activity. An expected loss on a contract is recognized immediately in profit or loss.

(iii) Rendering of services

The Corporation provides access mat rental, relocatable structure rental, and transportation services to customers. Revenue from rendering of these services are recognized over time. Rental days are used to measure the rental fleet revenue. Revenue is recognized at the applicable day rate for each asset rented, based on rates specified in each contract, and as the services are performed.

(iv) Sale of used fleet

The Corporation routinely sells items of property, plant and equipment that it has held for rental and such assets are transferred to inventories at their carrying amount when they cease to be held for rent. The proceeds from the sale of such assets are recognized as revenue at a point in time when control of the assets transfers.

(v) Sale of other goods

Revenue from the sale of other goods is measured at the fair value of the consideration received or receivable. The Corporation recognizes revenue when it transfers control of the product or service to a customer, which is generally when title passes from the Corporation to its customer, collectability is reasonably assured, the associated costs can be estimated reliably, and there is no continuing management involvement with the goods. The Corporation recognizes revenue from the sale of other goods at a point in time.

3. Significant Accounting Policies and Determination of Fair Values (continued)

- (c) New standards and interpretations not yet adopted

IFRS 16 Leases - IFRS 16 Leases introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-to-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. This standard substantially carries forward the lessor accounting requirements of IAS 17, while requiring enhanced disclosures to be provided by lessors. Transitional provisions have been provided. The Corporation intends to adopt IFRS 16 in its financial statements for the annual period beginning on January 1, 2019. Over the next quarter, the Corporation will continue to evaluate the existing lease agreements to identify potential impacts to business processes and will be modeling the impact of the new standard on financial results. As at September 30, 2018, the Corporation has largely completed reviewing its various lease agreements to assess the appropriate recognition of the underlying lease assets and liabilities. The transition method continues to be assessed as the Corporation completes the evaluation process.

4. Business Combinations

Shelter Modular Inc. ("Shelter")

On April 16, 2018, the Corporation acquired 100% of the issued and outstanding shares of Shelter Modular Inc. for \$3.6 million, payable in a combination of common shares of Horizon North ("Horizon Shares") and assumption of existing debt. The Corporation issued 983,004 common shares with a fair value at the acquisition date of \$2.37 per share for total consideration of \$2.3 million at closing.

Shelter is a full-service modular manufacturing company based in Aldergrove, British Columbia.

The following summarizes the major classes of consideration transferred at the acquisition date:

	Amount (000's)
Shares issued	\$ 2,330
Assumption of debt	1,318
Total consideration	\$ 3,648

The acquisition was accounted using the acquisition method on April 16, 2018, whereby the assets acquired, and the liabilities assumed were recorded at their fair values with the surplus of the aggregate consideration relative to the fair value of the identifiable net assets recorded as goodwill. The Corporation assessed the fair values of the net assets acquired based on management's best estimate of the market value, which included the condition of the assets acquired, current industry conditions and the discounted future cash flows expected to be received from the assets as well as the amount it was expected to cost to settle the outstanding liabilities.

The following summarizes the recognized amounts of assets acquired and liabilities assumed:

	Amount (000's)
Net working capital	\$ (1,867)
Property, plant and equipment	339
Deferred tax asset	2,566
Total net identifiable assets acquired	\$ 1,038
Goodwill	2,610
Total consideration	\$ 3,648

The allocations and determinations of the consideration described above are preliminary and subject to changes upon final adjustments.

The goodwill arises as a result of the synergies expected to be achieved as a result of combining Shelter with the rest of the Corporation. None of the goodwill recognized is expected to be deductible for income tax purposes. There are no identified intangible assets acquired.

Notes to the condensed consolidated interim financial statements (Unaudited)
Three and nine months ended September 30, 2018 and 2017

4. Business Combinations (continued)

From the date of acquisition to September 30, 2018, Shelter contributed \$1.4 million of revenue and \$0.2 million of earnings before tax to the Corporation. If the business combination had been completed on January 1, 2018, the revenue and loss before income tax for the nine month period ending September 30, 2018 would have been \$3.3 million and \$0.3 million respectively.

The Corporation incurred costs related to the acquisition of Shelter of \$0.2 million relating to share issuance, due diligence and external advisory fees. The cost related to the share issuance totaling \$48,000 were included in share capital on the balance sheet. The costs related to the due diligence and external advisory fees totaling \$0.2 million were included in selling & administrative expenses on the consolidated statement of comprehensive loss.

6. Loans and Borrowings

(000's)	September 30, 2018	December 31, 2017
Committed credit facility	\$ 24,140	\$ 73,016

The carrying value of Horizon's debt approximates its fair value, as the majority of the debt bears interest at variable rates which approximates market rates.

On March 27, 2018, the Corporation amended its committed credit facility ("credit facility") extending the maturity date to September 30, 2020. The credit facility has an available limit of \$150.0 million and is secured with a \$400.0 million first fixed and floating charge debenture over all assets of the Corporation and its wholly owned subsidiaries. The interest rate is calculated on a grid pricing structure based on the Corporation's debt to EBITDAS ratio. Debt to EBITDAS is calculated as at the most recently completed calendar quarter and for the 12 months ended on such date. Amounts drawn on the credit facility incur interest at bank prime rate plus 0.50% to 2.25% or the Bankers' Acceptance rate plus 1.50% to 3.25%. The credit facility has a standby fee ranging from 0.34% to 0.73%. The credit facility is subject to the following financial covenants:

Debt Covenants	Covenants Calculation September 30, 2018
Maximum Consolidated Senior debt ⁽¹⁾ to Consolidated Adjusted EBITDAS ratio ⁽³⁾⁽⁴⁾ (must be 3.00:1.00 or less)	0.81:1.00
Maximum Consolidated Total debt ⁽²⁾ to Consolidated Adjusted EBITDAS ratio ⁽³⁾⁽⁵⁾ (must be 4.25:1.00 or less)	0.84:1.00
Minimum Consolidated Interest coverage ratio ⁽⁶⁾ (must be 3.00:1.00 or more)	8.73:1.00

(1) Senior debt is calculated as the sum of current and long-term portions of loans and borrowings less vehicle and equipment financing.

(2) Total debt is calculated as the sum of current and long-term portions of loans and borrowings.

(3) EBITDAS (Earnings before interest, taxes, depreciation, amortization, share based compensation, impairment, gain/loss on disposal of property, plant and equipment, and earnings from equity investments) is not a recognized measure under IFRS. Management believes that in addition to total profit and total comprehensive income, EBITDAS is a useful supplemental earnings measure as it provides an indication of the Corporation's operating performance and it is regularly provided to and reviewed by the Chief Operating Decision Maker. Horizon North's method of calculating EBITDAS may differ from other entities and accordingly, EBITDAS may not be comparable to measures used by other entities.

(4) Senior debt to EBITDAS is calculated as the ratio of senior debt to trailing 12 months EBITDAS.

(5) Total debt to EBITDAS is calculated as the ratio of total debt to trailing 12 months EBITDAS.

(6) Interest coverage is calculated as the ratio of trailing 12 months Adjusted EBITDAS to 12 months trailing interest expense on loans and borrowings.

As at September 30, 2018, the Corporation was in compliance with all financial and non-financial covenants related to the Credit Facility.

7. Income Taxes

The provision for income taxes differs from that which would be expected by applying statutory rates. A reconciliation of the difference is as follows:

8. Revenue

The nature and effect of initially applying IFRS 15 on the Corporation's condensed consolidated interim financial statements are disclosed in Note 3. The Corporation recognizes revenue from the following major products and services:

Type of Product or Service Line	Accounting policy
Camp Rental and Catering revenue	Customer obtains control of the goods or services over time
Construction contract revenue	Customer obtains control of the goods or services over time
Rendering of services	Customer obtains control of the goods or services over time
Sale of used fleet	Customer obtains control of the goods or services at a point in time
Sale of other goods	Customer obtains control of the goods or services at a point in time

(a) Disaggregation of revenue

In the following table, revenue is disaggregated by major products and service lines and timing of revenue recognition. The table also includes a reconciliation of the disaggregated revenue with the Corporations' reportable segments.

(b) Contract balances

The following table provides information about receivables, contract assets and contract liabilities from contracts with customers.

(000's)	September 30, 2018	January 1, 2018
Receivables, which are included in trade and other accounts receivables	\$ 74,353	\$ 89,070
Contract assets, which are included in trade and other accounts receivables	17,403	9,695
Contract liabilities, which are included in deferred revenue	2,056	7,008

The contract assets relate to the Corporation's rights to consideration for work completed but not billed at the reporting date. The contract assets are transferred to receivables when the rights become unconditional. This usually occurs when the Corporation issues an invoice to the customer. The contract liabilities relate to the advance consideration received from customers for which revenue is recognized over time.

The amount of \$7.0 million recognized in contract liabilities at the beginning of the period has been recognized as revenue for the nine months ended September 30, 2018.

9. Share Capital

(a) Authorized

Unlimited number of voting common shares without nominal or par value.

Unlimited number of preferred shares issuable in series.

(b) Issued

	Number	Amount (000's)
Balance at September 30, 2017 and December 31, 2017	144,675,339	\$ 286,754

Balance at September 30, 2018	164,268,988	\$ 338,377

On January 8, 2018, the Corporation acquired Moose Haven Lodge for an aggregate purchase price of \$14.0 million including the issuance of 665,779 common shares of the Corporation with a fair value of \$1.50 per share for total compensation of \$1.0 million.

On April 16, 2018, the Corporation acquired 100% of the issued and outstanding shares of Shelter Modular Inc. for an aggregate purchase price of \$3.6 million including the issuance of 983,004 common shares of the Corporation with a fair value of \$2.37 per share for total consideration of \$2.3 million (Note 4).

On June 25, 2018, the Corporation closed a bought deal equity financing agreement with a syndicate of underwriters that purchased 17,857,200 common shares of the Corporation for resale to the public, including overallotment, at a price of \$2.80 per common share for gross proceeds of \$50.0 million. In connection with the offering, the Corporation incurred approximately \$2.5 million in transaction costs which included \$2.3 million in agent fees. Total transaction costs, net of tax, were applied against the proceeds in share capital during the nine months ended September 30, 2018.

(c) Share option plan

The Corporation has a share option plan for its directors, officers, and key employees whereby options may be granted, to a maximum of 10% of the issued and outstanding common shares, subject to terms and conditions. Share option vesting privileges are at the discretion of the Board of Directors and were set at three years. The Corporation uses graded vesting for share options over the period in which the option vests. All share options are equity settled with a weighted average remaining contractual life of 2.7 years and all options granted have a maximum term of 5 years.

9. Share Capital (continued)

(c) Share option plan (continued)

The Corporation calculated the fair value of the share options granted using the Black-Scholes pricing model to estimate the fair value of the share options issued at the date of grant. The weighted average fair market value of all options granted during the nine months ended September 30, 2018 and the assumptions used in their determination are as follows:

	September 30, 2018
Fair value per option	\$ 0.81 CAD
Forfeiture rate	9.22%
Grant price	\$ 2.53 CAD
Expected life	3.0 years
Risk free interest rate	1.96%
Dividend yield rate	3.15%
Volatility	54.86%

Expected volatility is estimated by considering historic average share price volatility. For the three and nine months ended September 30, 2018, share based compensation for share options included in operating earnings (loss) amounted to \$0.3 million and \$0.7 million (September 30, 2017 - \$0.2 million and \$0.5 million).

(d) Restricted share unit plan

The Corporation has a Restricted Share Unit ("RSU") plan for its directors, officers and key employees whereby RSUs may be granted, subject to certain terms and conditions. Under the terms of the RSU plan, the awarded units will vest in three equal portions on the first, second and third anniversary from the grant date, and will be settled in cash in the amount equal to the fair market value of the Corporation's stock price on that date.

The following table summarizes the RSUs outstanding:

	Number
Units outstanding at December 31, 2017	1,811,207
Granted	1,094,148
Forfeited	(103,758)
Exercised	(740,616)
Units outstanding at September 30, 2018	2,060,981

The following table summarizes the RSUs fair value per unit at the time of issuance and as at September 30, 2018:

	Units Issued	Fair Value at Grant Date (\$ per unit)	Fair Value at September 30, 2018 (\$ per unit)
Opening balance	1,811,207		2.95
Issued on March 15, 2018	228,426	1.97	2.95
Issued on March 26, 2018	21,900	2.15	2.95
Issued on April 17, 2018	15,021	2.40	2.95
Issued on June 1, 2018	766,603	2.98	2.95
Issued on July 30, 2018	12,198	2.47	2.95
Issued on September 4, 2018	50,000	2.44	2.95

As at September 30, 2018, \$3,000 (2017 - \$0.5 million) was included in accounts payable and accrued liabilities for outstanding RSUs. For the three and nine months ended September 30, 2018, share based compensation for RSUs included in operating earnings (loss) amounted to \$0.5 million and \$1.3 million respectively (September 30, 2017 - \$0.1 million and \$0.3 million), with a weighted average remaining term of 1.3 years.

10. Earnings Per Share

The calculation of basic earnings per share for the three and nine months ended September 30, 2018 was based on the total loss attributable to common shareholders of \$0.2 million and \$9.6 million respectively (September 30, 2017 – \$6.1 million and \$4.0 million).

A summary of the common shares used in calculating earnings per share is as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2018	2017	2018	2017
Number of common shares, beginning of period	164,252,322	144,647,006	144,675,339	144,622,006
Weighted average effect of common shares issued	1,812	13,571	7,604,884	2,772
Weighted average common shares outstanding – basic	164,254,134	144,660,577	152,280,223	144,624,778
Effect of share purchase options ⁽¹⁾	-	-	-	-
Weighted average common shares outstanding – diluted	164,254,134	144,660,577	152,280,223	144,624,778

(1) The Corporation utilizes the treasury stock method for calculating the dilutive effect of share purchase options when the average market price of the Corporation's common stock during the period exceeds the exercise price of the option

For the three and nine months ended September 30, 2018, 4,882,391 and 9,714,076 share options, respectively (September 30, 2017 – 7,395,161 and 7,638,003) were excluded from the calculation of weighted average common shares outstanding - diluted as the result would be anti-dilutive.

11. Dividends

For the three and nine months ended September 30, 2018, the Corporation paid dividends totaling \$3.3 million and \$9.1 million respectively (September 30, 2017 - \$2.9 million and \$8.7 million).

(000's except per share amounts)	2018		2017

12. Operating segments

The Corporation operates in Canada through three operating segments: Camps & Catering, Rentals & Logistics and Modular Solutions.

The Camps & Catering segment combines the camps and catering operations, and the associated services. The Rentals & Logistics segment combines all other rental operations; mat rental operations, relocatable structures rental operations, transportation operations and the associated services. The Modular Solutions segment is comprised of all modular manufacturing and installation operations for commercial and residential end markets. Corporate includes the costs of head office administration, interest costs, taxes, other corporate costs and residual assets and liabilities.

Information regarding the results of all segments is included below. Inter-segment pricing is determined on an arm's length basis.

(1) EBITDAS (Earnings before interest, taxes, depreciation, amortization, share based compensation, impairment, gain/loss on disposal of property, plant and equipment, and earnings from equity investments) is not a recognized measure under IFRS. Management believes that in addition to total profit and total comprehensive income, EBITDAS is a useful supplemental earnings measure as it provides an indication of the Corporation's operating performance and it is regularly provided to and reviewed by the Chief Operating Decision Maker. Horizon North's method of calculating EBITDAS may differ from other entities and accordingly, EBITDAS may not be comparable to measures used by other entities.

13. Seasonality

Some of Horizon North's businesses are affected by the seasonality associated with western Canadian oil and natural gas drilling industry. The Camps & Catering segment is exposed to seasonality where the busiest months are January through March and the slowest months are April through September. The Rentals & Logistics segment is typically busiest in the spring and summer months of April through September when soft ground conditions hinder the movement of heavy equipment. Modular Solutions segment is not impacted by seasonality.
